

PROJECT COST CONTROLLER

Location: Tanzania

Deadline: 13/05/2025

POSITION IN THE ORGANISATION:

- Job Location : The position is based in the EACOP offices in Dar Es Salaam (Tanzania).
- It reports to : Project Cost Control Lead (n+1); Project Control Manager (n+2) No direct subordinates or staff managed Project is itself a part of EACOP Ltd., along other Corporate EACOP Ltd. departments

JOB DIMENSIONS:

- The East African Crude Oil Pipeline (EACOP) project is a major regional infrastructure project between Uganda and Tanzania, opening a new value corridor between the two countries.
- It consists mainly of a 1445km, a green field marine terminal with an export jetty and 150km of feeder lines from Upstream facilities which will tie-in to the EACOP project, scheduled to be completed in 2025.

ACTIVITIES:

- Ensure that the expenditures of the activities carried out under the Project are strictly controlled, properly authorized, carefully monitored, timely centralized and reported in order to minimize, and to keep under strict control, their overall cost at all time
- Participate to the Procure To Pay process for the Project Cost Control part (invoice codification and compliance to contracts) and to the Project contract approval process when requested
- Participate to the preparation and submission of the Project annual and pluri-annual budgets for inclusion into the EACOP Ltd. budgets, and monitoring of the execution of these budgets
- Monitor, evaluate, control and update the Project major commitments and expenditures arising from the contracts, call-off orders, change orders and purchase orders
- Maintain and update as needed the cost control system (tools, structure, WBS, cost centres, etc)
- Identify and analyse the costs overruns or abnormal discrepancies in a timely manner, and provide Management with ready-to-use information to allow Management to make informed decisions on possible mitigation measures
- More generally, provide EACOP Project Management and its departments with reliable analysis and cost management reporting to monitor Project progress and satisfy internal and external reporting requirements as requested

- Provide information and assistance to other EACOP Departments for related processes and reporting such as the EACOP Annual Work Program & Budget, cash calls, company accounting accruals and audits, etc.

CONTEXT AND ENVIRONMENT:

- The context is complex with numerous stakeholders, environmental and societal / local content stakes, four partners, two involved countries new to oil development
- Strict adherence to HSE, Ethics and Compliance Policies and Procedures as edicted by EACOP
- The project will be developed together with an EPcmC contractor in charge of detailed Engineering, Procurement and Construction Management interfacing with EACOP and all construction contractors
- British-registered EACOP Ltd. is the legal entity carrying out the project through its branches in Uganda and Tanzania

QUALIFICATIONS AND EXPERIENCE REQUIRED:

- Experience in project developments, and in cost control in particular, alternatively a good accounting background
- Master Windows Office tools, especially Excel, and able to process big volumes of data.
- Reliable, accuracy and detail-oriented, able to work under pressure with some autonomy, team spirit, adaptable
- Fluent in English, written and spoken, and able to work in a multi-cultural environment
